Bridges

Different bridges are built with different materials. What material has been used to build the bridge in photo F? _____

List some other materials used to build other canal bridges. _____

What is unusual about the bridge in photo G? _____

Very few of the buildings along the canal are still used for their original purpose. Complete the table below about the buildings in photos H and I.

Building	Original purpose	How is the building used today?
H	Corn mill	
I	Canal warehouse
